CONGOLEUM HIGHLIGHTS

You have many calls on your budget these days. Yet you can put first things first and still buy what you actually need by choosing wisely. Take floors. Where can you get the beauty and enduring wear of Congoleum Gold Seal Rugs for anything like their modest price? They will brighten any room and make it more livable; yet never give even a hint of unpatriotic extravagance. Congoleum Gold Seal Rugs hug the floor without fastening and need only light mopping to keep them clean and smart as new.

EYE EFFICIENCY AND THE WAR EFFORT ...

Today's needs require men and women with perfect vision. Inefficiency in vision should not be tolerated whether in factory, office or home. THE BETTER YOU SEE THE BETTER YOU WORK.

YOU note this mean of glasses and having the tumost in comfort from glasses it is first necessary to have a capable and experienced Optometriat examine and analyze your visual conditions. Then— and only then—is it possible to know whether or what slasses are needed.

This country is engaged in the business of winning a war. It is a serious business, affecting the lives and works and plans of all of us.

Day by day, wartime conditions raise new problems in the making and selling and using of goods. Day by day, advertising is called upon to help meet these emergency problems. And by its very nature, the newspaper is better equipped to serve advertisers and consumers today than any other medium.

The speed and flexibility of newspepers, more valuable today than ever before, enable an advertiser to meet the swiftly changing market conditions of this emergency, when and where these changes occur. In newspapers, an advertiser can deliver the right message in the right markets at the right time. In no other medium carran advertiser fit his message to current emergencies so quickly and effectively.

The coverage of newspapers, more complete today than ever before, includes all the people an advertiser wants to reach. Executives, retailers, consumers... everybody who should be kept posted on a company's wartime operations...can be reached through this single medium. (The latest official ABC reports show newspaper circulations at an all-time high.)

Reader Interest in newspapers, more intensive today than ever before, as sures an advertiser of even closer atten-

tion to well-executed newspaper ads than in the past. The Continuing Study of Newspaper Reading shows that war news in the headlines means more careful reading of the ads; that the more important the news, the more thoroughly people read the whole paper, including the ads. Today, more than ever before, people realize that the ads are news, too...timely news that gives them valuable advice, saves them time, energy and money.

The efficiency of newspapers, more important today than ever before, gives an advertiser a more economical, wastefree delivery of his message than any other medium can offer. Advertising economy is all-important these days, and can best be effected through the marksmanship of newspaper advertising.

These and other advantages, each one accentuated by wartime business conditions, make newspaper space the one medium which is completely geared to today's needs. That's why the makers and sellers and buyers of goods are finding newspaper advertising so serviceable and so valuable today.

"Thank you, Mrs. Smith. Most of my customers are taking part of their change in War Savings Stamps these days."

"I'm so glad you reminded me, Mr., Jones. My husband buys Victory Bonds but we women want to save too and all my spare change is going into War Savings Stamps. It is so handy to be able to get them from you."

"Yes, indeed, Mrs. Smith, we retailers are doing our bit in this way and believe me, the total of these savings across Canada means millions of dollars for Canada's war effort."

THE REPAIR **JOB** IS ALL' **YOURS**

> "Yep, I feel terrible" - you sure have me pretty well battered up and full of headaches and heartaches. Maybe I can't accuse you of creating the headaches, but the job of cuting them is certainly all yours. It may mean giving up what you had planned and counted on for years, but SACRIFICE is what you have to make up your mind to do. For you young men, it means service in the armed forces: for you, who can't serve it means hard, hard work on the home front. Whatever sacrifice it means, make it cheerfully and well. YOUR COUNTRY, the land of opportunity that made your life aid education possible, NEEDS HELP -YOUR HELP, NOW!

Small Girl Has Ear

Almost Severed When She Runs into Taxi

Carrying Place Gardener Walks into Path of Car

When wat broke, Canada had no small-arms in-dustry. Today she is making all these modern weapons for bernelf and her allies. Her falles, the rap-plant, producing several thousand gons a month, ranks as one of the largest small-arms fectories in the world.

The telephone is a day-and-night necessity to the men who created this industry and now must set even new production records, month after month. Their cells must go through Lines must be available to handle them promptly. muss no avaisance to handle them promptly.

And they can be, provided everyone is efficient and unselfish in his use of existing telephone for an extensive wartime communications system. Are you observing "Wartime Telephone Testion",

YOUR faithful C.C.M. Bicycle that has been your reliable means of personal transportation may, anytime now, become your only means of convenient transportation—so.—look after it—keep it in good repair—oil it frequently and ride it in a "bicycle-conscious" manner.

"hisyde-coascious" manner.
And, in your effort to keep it in repair, don't be extravagant in distanting old parts—parts are sarce as many of the materials from which parts are made have gone to war. Joy saiddle seems to be "shot" look it over carefully, maybe a most horse and a rive there will pure light condition again. On if a whole seems by the supplies of the parts are the safe of the parts and the supplies of the parts and the supplies of the parts and the supplies and the supplies of the parts and the supplies are the safe which he had pot a few new pokes, make it and, with the halp of a few new pokes, make it as true as sare, And so on with every part of your

bicycle—keep it in good order and let your desiler help you to keep it on the road, using your present parts and accessories where possible. For those people who are engaged in war work of any kind, and who do not now one bicycle, there are still some new C.O.M. Bicycles available, in spire of bicycle material supply having been reduced, therefore, our output of bicycles cursailed accordingly.

The fact that the high standard of quality of C.C.M. Bicycles and the accuracy with which they are made has been in no way impaired and will not be, increases our difficulty of production. But the war won't last forever and C.C.M. Bicycles, which have been built to high standards of quality for over 40 years, will continue to be built when "Peece breaks out again."

See your C.C.M. dealer about putting your hicycle in shape for the season, or, if you are a war worker, 12k him if he can supply you with a new C.C.M. so that you may ride to and from your work.

Heavy Naval Blow to Japan

The United Nations' world, confident that with the wholehearted and all-ou effort of every one of this group of effort of every one of this group of peoples bound to fight to the end for the enthronement of accurity along the nation, has greded with acclaim the news of the great naval struggle which has been rating in the Petfort this past week. The destruction of acceptance of the people of heaviest blows ever directed in history at an enemy. It is an answer to the Japanese and it shows that the Allied or United Nations scapower is a mighty weapon in the salvation of the world from Japanese

perialism.

The blow serves to indicate the inroads The blow serves to indicate the infrase which Allied warraft have made on the Japanese since Pearl Harbor on December 7th. The enemy has lost 200 warraft and 53 other vessels. This is the attrition which is being felt by the enemy and it includes 76 transports, 19 submar-ines, 25 destroyers and 16 cruisers.

WHY THERE IS A SHORTAGE OF ICE CREAM

when you tried to thy for Orem during the past month and particularly the last few days of the paths there is not become your contract there were times when your ice cress dealers on our times come. Possibly you have wondered why, and just how your going without ice orean would help the war effort, - Well, here is the answer.

There is just so much milk produced in Canada. This milk, goes into various products such as cheese, butter, evaporated, cream for ice oream, etc. i.e. and it is also necessary for Canada to supply dairy products for oversees. Because the combination of Canada's requirements and Great British's needs is greater than the total production of Canada, there are not enough milk products for everybody.

The Dominion Department of Agriculture and the Wartine Prices and Trade Board have, therefore, placed certain restrictions on dairy products -- and one of these is that ice creem manufacturers are only allowed to sell the same quantity of ide orean that they sold in corresponding periods last year -- but there are more people in Gunada working and more people want to buy ice cream -- therefore, the quota-of ice cream was exhausted before your needs were taken care of.

However, as the people in Cunada are being allowed as much ice cream as last year — there is no real hardship—and the fact that there is a shortage of ice cream reflects the universal knowledge that ice cream is a good, healthful food, as well as a delbful ous dessert.

The above explains one of the reasons why your Borden ice orean dealer was, and will be, out of ice orean occasionally—both he and we are cheerfully foregoing the extra business that might be obtained — knowing that by so doing we are contributing scanting to the war effort.

When you find your Borden dealer out of ice cream -- Smile, -- knowing you are going without, so that milk products may go overseas to feed hungry civilians and maintain the strength of our armed forces.

nours of ioneliness or sultering, men voice that cry.
"We are getting one food parcel per week and 50 egsfrom the Red Cross." :: "These parcels enable us to
enjoy home comforts and keep up health and spirits."
So they write.

And what of the relatives? "I feel so happy to think of you'k indices to my poor boy, in a prison camp for two years. God bless you all." ... "It gives us great comfort to know our husbands are getting, the comforts they need." ... "When we got your card about our brother, we felt as though the sun suddenly shone."

More than a million parcels have been sent up to now, to prisoners of war. YOUR money makes the work of the Red Cross possible. The need is great—and GROWING. You never have failed them—you will not fail them now. Open your heart and your purse strings—Give Generously.

Housewives: - Make it your job to save in every way you can. Consider your tasks as much a war job as if you were in uniform. In the kitchen, you can serve by using war recipes. You can serve with your work-basket uning war recipes. I cold an serve with your water serve when you go shopping by purchasing economically. With the savings you make, you can buy War Savings Stamps every took to aid your country and protect your family's future against possible difficult times ahead. Remember—saving BRITAIN is at war . . . So are we. Britain is on strict rations . . . We are not. But suppose we, willingly, lived as simply as they have to live in Britain . . .

Think of the War Savings Stamps we could

... to provide our fighting men with enough equipment to beat the Nazis . . .

to help keep prices from going up,

and to carry us over the difficult times when all this war-work stops !

Buy as many War Savings Stamps as you can, every day, every week.

Get them from banks, post offices, druggists, grocers and other retail stores.

Don't be a CUPBOARD DUISLING!

"Cupboard Quislings"! Is that toothard a name for people who selfishly lay in unnecessary stocks of clothes or food, or other goods for fear of shortages?

No! The name is not too hard, even though it may be earned through thoughtlessness. For in reality they are doing, in a petty, mean way, what the Quisling does in the open.

Anyone who buys more than is necessary for current needs-

Is breaking his country's law for personal advantage.

Is betraying his loyal neighbours and those who are not so well off as he.

Is, in effect, depriving our fighting men of the munitions and supplies they must have to defend us.

Is hindering our war effort and helping our enemies.

Loyal citizens avoid putting unnecessary and abnormal strains on our factories. In time of war, loyal citizens do not spend one dollar more on civilian goods than is absolutely necessary for current needs.

The law provides for fines up to \$5,000 and imprisonment up to two years for hoarding; and hoarding is just another word for unnecessary selfish buying.

> In cases where it is advisable for you to buy in advance of your immediate requirements—such as your next season's coal supply — you will be encouraged to do so by direct statement from responsible officials.

NATIONAL WAR LABOUR BOARD COST OF LIVING BONUS

The Dominion Bureau of statistics-has found that the cost of living index number for April 1, 1942, of 115.9 (adjusted index 11.5) has not risen by one whole point or more over the index number for October 1, 1941, of 11.5.5 (adjusted index 11.6.). Accordingly, the National War Labour Board, pursuant to the provisions of Section 12, of Order in Council P.C. 8253, determines and announces, for the period May 15, 1942, to August 15, 1942, subject to the right of employers or employees to apply to a War Labour Beard for authorization of payment of such an amount of cost of living bonus as a Board may determine to be "fair and reasonable", under the provisions of the Order, that The Dominion Bureau of statistics-has found that

IMPORTANT AIR FORCE RECRUITING

ANNOUNCEMENT:

Attention is drawn to the new regulations whereby transfer to the Air Force is not possible after recruits have reported to on Army Training Centre.

All those within the age groups subject to call under the National Resources Mobilisation Act who wish to apply for Air Crew Duties R.C.A.F. Pre-enlistment Observer, or Pilot Academic Courses, Technical Aeronautical Courses, or who feel that their qualifications would be more useful to the Air Force than the Army, should apply to the nearest R.C.A.F. recruiting centre.

If candidates cannot be accepted immediately in the R.C.A.F. those qualifying in certain categories may enlist and be posted on leave without pay until required to report.

This Hear MORE COAL MUST BE MINED IN THE SUMMERTIME

> NOW is the time to place your next> season's coal order-not next fall or winter. And here is why . . .

Coal miners do not ordinarily work full time in the summer months. This year, if temporary lay-offs come, miners will seek other employment and will not return to mining. If this occurs coal supplies will be short next winter.

Dealers' yards can only hold so much, and unless householders order early and take delivery, new supplies cannot be brought in-It goal production in permitted to slacken off this summer, the railroads will not be able to move the coal required this fall, because of the increased shipments of war materials.

Canadians can be sure of warm homes and offices
next winter only by placing their coal orders at once. This
will enable the mines to work steadily all summer, without
lay-offs, and the railroads to move the coal over a longer

BORDEN'S PREMIUM PLAN will be discontinued AUGUST 1st, 1942

Under ordinary circumstances, this would be bad news. But today all available resources in materials and labour are being directed towards winning the war.

And so The Borden Company Limited finds it necessary to withdraw its premium wrapper plan. After Saturday, August 1, 1942, premiums will no longer be given in exchange for wrappers from Borden's "Silver Cow" Evaporated Milk or Borden's "Eagle Brand" Sweetened Condensed Milk.

New wrappers are now being printed without the premium offer on them. These new wrappers will not be exchangeable for premiums.

There may still be Borden's "Silver Cow" milk or Borden's "Eagle Brand" milk in wrappers with the premium offer on them at your retailer's after August 1, 1942, but such wrappers will not be accepted in exchange for premiums after that date.

Wroppers must be smalled before August 1; 1942; to 2

OVER the last 40 years C.C.M. have built up, manned and equipped a fine modern place of equipped a fine modern plant for the accurate and efficient manufacture of C.C.M. Quality Bicycles. And now that our country is at war we are able to change over our expert mechanics, materials and machines to the making of those essential war materials for which they are peculiarly suited.

'And so we say "Munitions and Bicycles" for we still make as many bicycles as we can obtain materials for, because bicycles play their part in the war drama as they provide the only means of transportation for many war workers.

If you need a new bicycle or repairs to an old one, to carry you to and from your war job, see your C.C.M. dealer. He will do his best to supply you with a new bicycle or replacement parts for your old one. He may ask you to be patient but if your needs can be met he will meet them as quickly as he possibly can.

IN ORDER TO ALLOW JIS TO DO AN AI SERVICING JOB ON YOUR DISABLED C.C.M. BICYCLE PLEASE BRING A SAMPLE OF THE BROKEN PARTS WHEN YOU COME IN FOR BICYCLE

THE FARMER "Keeps 'em Fighting"

THE Canadian farmer has one of the higgest jobs of this Twar on his hands: to feed his fellow-citizens and to export the var quantities of food required by our overseas forces, our kinsmen in the United Kingdom and our Alliest. In every way, he job is larger than in the last war More countries have been overrun by the enemy, many cargoes are being jobs at ser

are being lost at sea.

Demands on the farmer for increased production must be passed on by bifts to Canadian soil. Each acre must produce better copys. But soil can yield only as it is replenished and for this reason the Fertilizer Division of C-L1. is bury serving the Canadian farmer with its production of chemical fertilizers that maintain and increase soil fertility: Crops are protected against blight and pest with C-L1. Insecticides and Fungicides and Seed Disinfectants. Live sock is brought to earlier and better marketability by C-L1. Mineral Food Supplements.

Pertilizers, Eungicides, Insecticides and Seed Disinfectents are some of the G-I-L products of Industrial chemistry which are helping Canada's war offers.

I paid for this cream separator with the EXTRA PROFITS made by using QUAKER CALF MEAL!

> THOUSANDS of alert Canadian Dairymen have proved that Quaker Calf Meal costs less to feed. Prove it to your own satisfaction this season and with the savings you make buy some needed equipment for your farm. Quaker Calf Meal is a balanced ration, scientifically compounded to take the place ration, scientifically compounded to take the place of whole milk after the first month, and gives results that compare most favourably with whole milk feeding. Feeding Quaker Calf Meal permits you to sell a maximum of milk from the herd, while raising the calves into strong lusty heifers.

one than another? Is it conceivable that only the crashing of bombs in our streets can arouse us to complete, unified action? THIS is OUR war! Every last one of us

Ours is not the worry of FIGHTING it. Our courageous sons will do that. Govern-ment and industry will put twenty-four hours a day against the job of equipping them well. YOUR job-your BIG job-is the prompt

elimination of all forms of wasie. That job starts right where you are in your own home. To sak WHAT to save is to admit a total lack of understanding of the crisis we face.

SAVE EVERYTHING. WASTE, NOTH-INO! That is your answer. And start to-day. Every minute lost can postpone the day of victory. MY HOME WILL LIVE BY THIS PLEDGE UNTIL VICTORY BRINGS THE RETURN OF OUR SONS.

ANNOUNCEMENT

THE GIFT SCHEME

Pearl, Comfort, Surprise Soaps and Handy Ammonia Powder

WILL BE DISCONTINUED ON JULY 31st, 1942

Because of the War, because of the difficulties of obtaining supplies of gifty, and most important of all, the vital need success near metals, materials and management for the manufacture of sessorial war goods, it has been decided in the National interest to discontinue the offit Scheme. As a consequence, we regret to inform the public that the Colif Scheme will be windurent on July 341, 1972, and after that delso to PERING OF MENTILE SURPRIEST SOAF, and after that delso to PERING OF MENTILE SOAF DESTRUCTION OF THE STATE OF THE STA

As soon as we are able to obtain supplies of new packaging material, these products will be sold in wrappers and cartons without the Gift Coupons, and such wrappers will not be exchangeable for gifts.

It may still be possible, however, to buy Pearl, Comfort and Surprise Soaps and Handy Ammonia Powder after July 3lst, 1942, in packages bearing coupons. This cannot be avoided; but such coupons nevertheless cannot be accepted after that data.

To obtain gifts, coupons must be mailed before July 31st, 1942, to-

The immediate co-operation of the public is necessary if coal is to be available to heat and fuel Canadian homes and factories next winter.

Military needs are putting unusual burdens on our production and transportation facilities. If mining is allowed to slacken off during the summer months, as in the past, the railroads will not be able to move the coal required this fall.

If You Want to be Warm Next Winter

Give your dealer an order right away for the approximate amount of coal you will require next season. This will enable him to order his requirements, keep the miners working and the coal moving. Let him fill your bin as soon as he can make delivery. Provide extra storage space if necessary and

Dealers' yards can only hold so much. Unless consumers order early and take delivery, new supplies cannot be brought in.

IT IS NOT HOARDING TO BUY YOUR COAL EARLY.

BEGINNING AT ONCE

COFFEE ARE RATIONED

Ships and lives must be conserved

To bring tea from Ceylon and India, to bring coffee from South America, ships must cross oceans infested with submarines. Today those ships and their naval escorts are required for more essenticil services. Every ship, every foot of cargo space, is needed to carry war materials, and to bring essential goods to Canada.

So Canadians must now reduce their consumption of tea and coffee. You must reduce your normal consumption of tea by at least a half. You must reduce your normal consumption of coffee by at least one fourth. These reductions are absolutely necessary.

TEA CONSUMPTION

COFFEE CONSUMPTION

THIS IS THE LAW

You must not buy more than 2 weeks supply of tea or coffee for yourself and household in any one week.

You must not make further purchases of tea or coffee at any time when you have two weeks' supply on hand at the reduced ration. (Exception: those in areas remote from supply.)

Retailers have the right to limit or refuse customers' orders if they suspect the law is not being kept.

Retailers must not have on hand more than one month's supply of tea and colies, whether packaged or bulk.

There are heavy penalties for violations of this law.

Have You The Cash To Pay For Next Winter's Coal Now?

If not, discuss the question of a personal loan for the purpose with our nearest branch manager.

Many patriotic citizens are buying next winter's coal now, following the suggestion of the Coal Administrator, who has urged early ordering of fuel because of the transportation difficulties with which Canada will be faced in the _ months ahead.

Delayed or reduced deliveries may occur if orders for coal are not placed in good time.

If you are without the ready cash, our personal loan service, available at any of our branches, may be of real help to you, and our local manager will welcome the opportunity of discussing your requirements in confidence.

MRS. WATKINS has the right idea. She's saving money in every way she can even though the family is earning big wages now. But she says as long as Canadian boys are fighting overseas she's going to fight on the home front—fight to help keep prices down, to keep the boys equipped, and to have some thing put away against any difficult times ahead. She's buying War Savings Stamps with every cent she can save . . . buying them every week. Are you?

There isn't a kitchen like that anywhere else in this world. A gleaming white refrigerator that actually makes ice and keeps your food fresh-at a snap of a switch. A beautiful, compact range to make cooking easier . . .

Over there, a spotless white sink, and perhaps a dishwasher. Your toaster—washle iron—food mixer—vacuum cleaner. Nowhere else in the world do women have these

Or glance out the window at your car. Streamlined-powerful-ready to carry you in comfort wherever you want

And now - for the first time the source of these miracles in your life is closed. The places where they came from are now making planes, shells, ships, implements of war.

won. And peace will not be won until we all have made our share of sacrifice. This is that kind of a war!

What can you do? You can guard that kitchen-that ear-everything mechanical or electrical you own-as if your life and the lives of those you love depended on it.

For lives can depend on the care you give your possessions! Even a small replacement part, made necessary by your neglect, can use metal desperately needed to win this war. Translate your neglect into guns without triggers,

planes that arrive too late, ships held up on the ways.

You are being challenged to guard and preserve the things you have. Everything made of metal. Everything made of rubber. To help build the armaments and planes and ships-without which there can be no victory.

Mnd for every piece of metal you save-mark up a contribu-tion you have made to a bomber that may sink an enemy ship.

This message is published solely in the interest of speeding victory. We have no axe to grind ... our machines have been converted to the making of essential materials for war and war production. We look forward to the day when we may serve civilian needs again. How soon that will be -if erendepends upon how well we all do our job now. There must be no let-up short of VICTORY.
